Who We Are?

APEX Smart Commercial is a specialized security consulting firm based in San Antonio, Texas dedicated to helping nonprofits navigate the complex Nonprofit Security Grant Program (NSGP) process. Our mission is to protect those who serve our communities by ensuring they receive the federal funding they need to enhance security and safeguard their operations.

The NSGP Opportunity

The Nonprofit Security Grant Program provides funding to strengthen nonprofit organizations against security threats:

- Up to \$150,000 per facility
- Competitive grant program for nonprofits at high risk of terrorist attack
- Covers security equipment, training, and facility hardening
- Specifically designed for places of worship, schools, community centers and other 501(c)(3) organizations

The Challenge

Most nonprofits face significant hurdles with NSGP:

- Complex federal application process
- Strict eligibility requirements
- Technical vulnerability assessment requirements
- Limited application timeframes
- Need for specialized security knowledge
- Competition for limited funding

Our data shows that a majority of nonprofits struggle to complete their applications without assistance.

Our Comprehensive Solution

APEX Smart Commercial provides end-to-end NSGP application support:

1. Eligibility Confirmation & Registration

- 501(c)(3) status verification
 - SAM.gov registration assistance
 - State Administrative Agency (SAA) coordination
-

2. Vulnerability Assessment

- Comprehensive facility security evaluation
 - Threat identification and analysis
 - FEMA-compliant documentation
-

3. Investment Justification

- Compelling narrative creation
 - Project alignment with national priorities
 - Budget development and optimization
-

4. Equipment Planning

- FEMA-approved equipment specification
 - Competitive vendor quotations
 - Cost-effective security solutions
-

5. Application Submission

- Document preparation and review
 - Deadline management
 - Post-submission support
-

Our Track Record

Case Studies

Faith Community Church

- Secured \$140,000 for comprehensive security upgrade
- Implemented access control, video surveillance, and emergency notification systems
- Completed full project within 12 months

Community Learning Center

- Obtained \$120,000 for perimeter security
- Enhanced lighting, fencing, and visitor management
- Reduced security incidents by 75%

Temple Beth Shalom

- Awarded \$150,000 for facility hardening
- Implemented bulletproof glass, security doors, and staff training
- Created comprehensive emergency response plan
